LEPRA OR LEPROSY is a cutaneous disorder, appearing on various parts of the body in whitish dry scabs, which continue to spread, until it becomes confluent, and the parts swell to an enormous extent. It is of ancient origin, and was well known to the Komans, Greeks, and Arabians, being considered a disease influeted for transgression. A Leper was looked upon as an outcast from suciety. Leprosy bears a close resemblance to Scrotula; hence it is transmitted from sire to son, and many lepers may be seen even in the present day. Its peculiar characteristics are white scabs, which, being displaced, leaves a red spot, and another scab soon is formed, varying in size, depressed in the mid-LEPRA OR LEPROSY is a cutaneous disorder, appearing or

Commercial and Money Matters. MONDAY P. M.

The sales at the Board were not large to-day, but there was generally a little better feeling. Prices however did not vary materially. For Harlem 161 was bid, regular way, an payment of an assessment for opening Mount Mores Square; advance of 1 per cent. bank are now in the hands of the farmers, merchants, and working classes of this county. This will undoubtedly seriously affect the business arrangements and calculations o very many of our citizens in this section. Numbers will experience great pecuniary difficulty and embarrassment. Many farmers in this county, we are informed, have disposed of their entire Wheat crop and taken the bills of this bank in payment.'

We are informed that the Long Island Railroad Company completed as advantageous arrangement on Saturday with the Brooklyn and Jamaica Railroad Company, by which the latter surrender a large sum (upwards of \$100,000) to the Long Island Company, of the accraing rent of their road with a view to aid in the completion of the Long Island Road, and hastening the period for connecting with the direct railroad line to Boston. The Long Island Company we understand has been paying a rent of \$38,000 per annum to the Brooklyn and Jamuica Road. We are informed that the arrangement is this, that for the last year's rent the Brooklyn and Jamaica Company are to take long bonds of the Long Island Company. The Long Island Company to proceed at once to finish the road paying the Brooklyn and Jamaica road for three years a rent of \$55,000 per annum instead of \$33,600.

A letter from London, published in the Journal of Comnerce, reiterates the opinion that nothing can be done or the Continent or in England with the Government Loan .-It states that the demonstration upon Amsterdam made by Mr. Robinson and Mr. Mealester was a tour of pleasure and not connected with the loan. The letter states that an emineat capitalist stated that no house in Europe would dare to take the loan in the present state of public opinion.

The Rensselaer and Saratoga Railroad is advertised for sale at auction under foreclosure of a mortgage given to the Bank of Troy, Farmers' Bank of do, Merchants' and Mechanics' of do, City Bank of do, and the Rochester and Saratoga Railroad Company.

The Philadelphia Ledger states that the Government Loan has been so liberally subscribed at the Agency in that city that further subscriptions will not be received at present. The rate of interest is six per cent. Pennsylvania State stock is improving in Philadelphia, Sixes having sold at 514 and Fives 454. Money is very plenty.

The Farmers' Bank of Maryland has declared a dividend of two and a half per cent. The Orange County Republican, alluding to the " Farmers' Bank of Orange County," which we gave an account of some time since, says it has a circulation of seven hundred ioliars. The Republican is in error, this bank has been extending itself materially. It has made an additional depo-

L' Leary & Co., Nos. 4 and 5 Astor House, New York, Hatters, will introduce on Wednesday, the 21st inst., a new and degant article of gentlemen's Black Far Hats, at \$5,62½ each, in explanation of which we submit the to-

lowing remarks: Since the origin of our establishment, we have had in view, and have strictly adhered to three distinct purposes in our manufactures, viz: Economy in price, Improvement of quality and taste, and the perfecting a STANDARE OF FASHIONS FOR THE UNITED STATES, independent of the European, all of which have been successfully effected, resulting in a most important saving to the community at large, and an equally satisfactory remuneration to ourselves, consequent upon the extensive patronage which we have reserved.

Our improved FIVE DOLLAR HATS, so superior in material, elegance of style and perfect finish, that immediately upon their introduction, they became not only pre eminent at home, but celebrated in London and Paris, and elicited the highest encomiams of the Press there, soon su-Although the transactions in State Stocks were limited, perseded the \$10 Hats previously worn here by the first class of our citizens. This article, now fully established as the highest standard, is so extensively known and universally approved by the fashionable and genteel wearers and true economists, that we will not now allude further to its merits, except to announce that we have improved its beauty and value the present season beyond any that we have heretotore produced.

At the urgent solicitations of many of our customers, who were anxious to economise in the first cost, and yet desirous to avail themselves of the peculiar style and finish characteristic of our fabrics, we have for some time past made diliment efforts to accomplish their wishes, and consequently bave just perfected the new article of Hats as announced above. They will be composed of superior materials, the workmanship will be of the first order, and although fully equal to Hats formerly retailed at \$6 and \$7, they will be sold at \$3,624 each, a price not only commensurate to the present pecuniary depression, and far less than their intrin-sic worth, but infinitely cheaper, when the respective qualities are compared, than any which have ever before been

offered to the public. Purchasers are assured, in advance, that these Hats will not incur the objection, viz: " dear at the price," currently argued against most low priced goods. LEARY & CO. Astor House, Sept. 15th, 1342.

IT Hats of the Fall Style are now ready. The model for the season is a slight modification of the prevailing Paris mode.]

PARISIAN STYLE OF HATS. The attention of gentlemen is particularly invited to the subscriber's beautifully fabricated Silk Hats, better known as "Warnock's Moleskin Hats." This article, since its introduction, has rapidly acquired and successfully maintains its popularity, produced by the subscriber in a manner altogether superior to any of the kind that has been or is now before the public, and is worthy of notice as possessing all the qualities of a superior bat, as lightness, beauty of finish,

permanency of color, and capacity for service. That the Moleskin Silk Hat possesses the very elements studiensly aimed at in the production of a perfect article, it needs only to be stated that the foundation or body is manufactured from the finest description of stock, and the plush or covering of the finest quality silk, than which, it will readily be admitted, there is nothing of the nature of fabric more durable. To gentlemen who have not given the above hats a trial, it is remarked that they have been for years the most popular, and are now almost exclusively the fashionable Hat of Paris-this, to say the least, is a strong recommendation. To such gentlemen as have preference for French manufacture, it is remarked that, from the subscriber's observations during a recent visit to the French metropolis, he is enabled to say, that though in one or two particulars the French excel, yet in the main, the article old by him is superior. The pattern for the fall and winter

is at once a model of symmetry and beauty. FOUR DOLLAR MATS.

The peculiar condition of the monetary affairs of the present time, demanding of the mass of the community the adoption of retrenchment and economy, the subscriber deems it expedient, for the time being, to deviate somewhat from the system bitherte strictly adhered to in the conducion of his business, (that of selling none other than the first quality,) now offers to gentlemen disposed to economise, a superior bat at the moderate price of Four Dollars. This article possesses in a large measure the constituent parts of the most costly, prepared with all their neatness and external finish, and are sold at a small advance upon the cost They are " Hats for the Times."

s20 T Th&S 2wis WARNOCK, 170 Broadway. Orlando Fish, Fashionable Hatter, 137 Broadway, would inform the gentlemen of New York that his Fall and Wister style of Hats is now ready for their inspection and critical judgement. Claiming the distinction of having been the first to project and abide by a strictly AMERICAN style of Hats, instead of servilely copying the mate and manners, he rejoices to perceive that others have seen fit to follow his lead, and that now the following of European Fashions in Hats is almost entirely abandoned by

the leading manufacturers. He offers a Winter style of Gentlemen's Nutria Hats at \$3.50, and warrants them equal in material, finish, fashian and durability to any Hat sold as low as \$4 in the city. But he wishes it distinctly understood that his best Hats are aot sold at this price, but at \$4 50. These he recommend as equal to any hat sold in New-York at \$5 or under, and challenges for them a comparison with any other.

Gentlemen visiting our city are respectfully invited to call and examine his new stock of Winter hats and judge of their quality. He is confident that, whether the cheapest or the best flat is desired, the inquirer will here be satisfied Try him. (\$2001) O. FISH, 157 Broadway.

L' spencer's imitation Roleskin Mat. This popular article is commended to the public as pecu-tiarly desirable, at the present time, for its economy. For elegance and durability, it competes successfully with the most costly Hats worn. Price \$3 25. SPENCER, al6 tf Fashionable Hatter, No. 245 Broadway.

The subscriber invites the attention of the Beau Monde to us beautiful, graceful, and tasteful lew bell-crowned flat, being the only ready fashismable article or the kind extant, though he cannot expect but imitators will spring up, and claim the benefit of his own original conceptions.

To say that these Hats surpass any thing of the kind in point of style, finish, and graceful appearance, is to claim no more than is warranted by an experience of twenty years in the business, and he invites gentlemen who study grace and tashion, to call and examine for themselves.

I Fall Fashion Hats now rendy-Watson's Silk Hats, only \$2.50, are recommended to the public not only for economy but as possessing all the elegance of contour of the most costly; combining utility with beauty; this article cannot fail to co-mend itself to the connoiseur as well-s economist. Also, Moleskin Hats, at \$3.00; Beavers. at \$450; Cassimere and Nuria Hats, at \$350 each; these are his standard prices, and he need only remark that by confining himself to one quality and price for each description of hats, he is enabled to furnish a superior article at prices are below those at which Hats of the same descrip-

ion are now vending by other manufacturers.

A steady and permanent increase of patronage for the last 7 years is a sufficient indication of public judgement, od constitutes the best test of their merits.

EWS FROM RHODE-ISLAND.—
IMPORTANT TESTIMONY.—If further proof is required to establish the fact of the inestimable value of Dr. Starkweather's Hepatic Elixir, the following communication from the Hon. Samuel W. King, Governor of the State of Rhode-Island, contains adequate testimony to substantiate it beyond dispute, and most put entirely at rest the idea that this potentremedy is classed with the many useless and dangerous nostrums which are palmed upon the public merely for the sake of gain. public merely for the sake of gain.

Please agad the following statements communicated to

Mr. CHARLES DYER, Jr.:

My Dear Sir—Your communication of yesterday, asking my opinion of Dr. Starkweather's Hep. tic Elixir, has been received this morning. In reply, I will inform you that my confidence in patent medicines generally is not very flattering. I have had too much reason to believe that unprincipled men will often palm upon their fellow-citizens their nucless, if not dangerous many mas for the sake of calculations. their useless, if not dangerous nest ums for the sake of gain, the use of which takes up that imperiant and critical period of time without producing any good effect, when otherwise perhapt proper remedies would have been used, and much suffering and distress prevented. For that reason I have not used them, feeling myself and family to be much safer under the direction of my famil; physicians; but having been afflicted for the last si xyears with difficulties in the side and

with him a long and intimate acquaints were when we were young men, and from my knowledge of him I thought him incapable of practising deception on any person, this fact induced me to try Dr. Stark weather's Hepatic Elixir, and by its use I now believe myself entirely cured.

I need not, therefore, say to you that I consider it of great volue. I certainly think is discovery of great public im-

Programme.
The first bottle I took gave me much relief, which regularly progressed until I hod taken six bottles, when I discontinued it, having, thank God, so for the ruse for it at present. With much regard and respect.
